## ARRIVAL OF THE HIBERNIA.

SEVEN DAYS LATER FROM EUROPE. The steam ship Hibernia, Capt. Ryrie, arrived at Boston on Saturday night at 12 o'clock and the Government Express with the news reached New York by the Long Island Rail Road, about 8 o'clock, on Sunday evening. The Hibernia left Liverpool on the 19th ult. She brings 112

much importance.

The demand for Cotton throughout the week had been considerable, and the quantity offering was large. Prices, however, had been reduced to within one-eighth pence of the lowest price of

last year.
Mr. Everett, the American Minister, who had been absent for some time on the Continent, had returned to England.

The year clocks, manufactured by Mr. Crane, of Newark, United States, have excited some attention in England, from the elaborate description of the machinery which appeared in many of the

The Rev. Dr. Wolf, who left England for Bokora to ascertain the fate of Gol. Boddart and Captain Conolly, is himself in custody and his life in imminent danger. His letters give a gloomy account of his position.

Mr. Clemson, the newly appointed American Charge d'Affairs in Belgium, has arrived at Brus-

TAHITI.-Another conflict has taken place between the French and the unfortunate people of Tahiti. The French commander Bruat, attacked Harpers-Ferry. the natives to the number of 3000, who had en-trenched themselves at Mahahans, and had three pieces of artillery. The redoubts were carried y the bayonet, the cannon spiked, the works destroyed, and the colors, arms, and ammunition, captured. The natives had 102 men killed, says the despatch, but the French had two officers killed, and fifty-two men wounded. The proceed-ings of the French at Tahiti are involving both the settlers and natives in one general ruin. The peaceful, simple, and kind government of the native Princess Pomare has been completely set aside by the French, who have now openly assumed the internal as well as the external government of Tahiti, and the unfortunate Queen has been obliged to take refuge aboad a small Brit-ish vessel of war now at Tahiti. Another account says:—The Tahitians were led by two Englishmen, who were killed. The French have been awfully handled, having lost altogether up-wards of four hundred killed and wounded, amongst the former six officers, one of whom is the first lieutenant of the steamer, which, it is said, when going along the shore, killed upwards of one hundred natives; however, the French governor has had enough of it; and has issued a proclamaat M. Bruat, which missed him. It is said they (the French) have taken a lieutenant off the Hazard, and have been playing all sorts of games. It of them being caught were shot. These desert-

THE KING OF THE FRENCH .- The London Times, in a pithy article, noticing the visit of Louis Philippe to England, says:

great service to the natives.

"But this is the first time in the history of our relations with France, that we receive the Sovereign of that nation on our soil of Britian, not because he is a fugitive, not because he has sunk under the reverses of intestine revolutions or foreign war, but because he is the successful, the triumphant King of the French-successful, in his long struggle over the dangers of anarchy own life-triumphant, in the maintenance of that policy of peace, which is the most characteristic and not the least praiseworthy element of his power. King Louis Philippe comes to England because he has successfully held, throughout the vicissitudes and dangers of the last fourteen years. the great principle that the prosperity and liberty of France required peace; and that peace for France and for Europe, means amily with Eng-land. Seen as it will be seen by the eye of history, when the minor differences of the day have sunk into appropriate in ignificance, this is the general effect—this is the great and insignificant result of the reign of Louis Philippe; and when also it is borne in mind from what evils this policy has saved the world, there is no one of so narrow a grasp of mind, or so distempered a state of fee! ing, as to forget the petty irritations of the moment in grateful acknowledgment of that good understanding which has been preserved by the blessings of Providence, between the two greatest nations of modern Europe."

ANOTHER FOOT RACE .- There is to be another great race over the Beacon course on the 11th of November for a purse of \$1,000. The principals in the last race are to start in this. The purses offered are liberal, and so divided as to induce a

DEATH OF GOV. RUNNELLS .- The Brandon (Mississippi) Advocate says that Gen. H. G. Runnells, formerly Governor of this State, who emigrated to Texas about two years since, has met a violent death. Report says he was assassinated by a band of lawless rascals, who way-laid and shot him. It is said that Runnells, and some other respectable gentlemen, were sent by the cicommitting various acts of violence under the autherity of "Lynch," or, as they styled themselves, They, or a part of them, were secured and lodged in jail, and, as Runnells and his they were fired on, and several others besides himself, killed. It was hoped that this report would

THE PATENT OFFICE.-We learn that the business of the Patent Office at Washington, continues to increase. During the month of September the following patents were issued and transmitted: New York city and State 20: Massachusetts 6; Pennsylvania 6; Maryland 4, of which there were two in Baltimore; Connecticut 3; South Carolina 5; Washington City 2; Ohio 1; Rhode Island 1; Louisiana 1-in all 46; besides four in England. THE SLAVE QUESTION .- The Synod of Cincinnati, at its last session, adopted resolutions on the subject of slavery. The resolutions declare slavery, as existing in the United States, to be manitherefore sinful; but that there are, in the opinion in the relation of master and slaves under such peculiar circumstances, that they cannot be justly charged with sin merely because of that relation.

PROPAGATION OF SOUND .- In No. 88, of the Quarterly Review, the following statement is

"When the ground is hard and dry, or rests upon a continuous stratum of rock, sound is propagated to a great distance; and hence it is the practice in many countries, to ascertain the approach of horsemen by applying the ear to the a great distance. Guns discharged at Carlscrona were heard as far as Denmark, a distance of at least one hundred and twenty miles. In sailing from Asia Minor to Egypt, Dr. Clarke heard the sound-of a sea fight at a distance of one hundred and thirty miles. Dr. Hearn heard guns fired at Stockholm, at a distance of one hundred and eighty Brirish miles: and the cannonade of a na about two hundred miles."

OLD NEWSPAPERS .- Many people take newspapers, but few preserve them; yet the most ineresting reading immaginable, is a file of old newspapers. It brings up the very age, with all its bustle and every day affairs, and marks its genius and its spirit more than the most labored description of the historian. Who can take a paper dated half a century ago, without the thought that almost every name there printed is now cut upon a tombstone at the head of an epitaph?

## THIS WAY, GENTLEMENT

I WOULD respectfully give notice that I am at my post, and particularly anxious to make your clothes. I take this mode of informing you that I have received the New York, Paris, and London Fashions, which are, to the Tailor, as the Compass to the Mariner-to show to him his own latitude and discover to him the public taste. From my experience in the art of cutting clothes, and a disposition to please, I hope to merit and receive a share of patronage in my line of business. Charlestown, Oct. 18. JOHN REED.

Harpers-Ferry, Oct. 25, 1844. PROSPECTUS For publishing in the City of Washington, a

Democratic Newspaper, to be called "THE CONSTITUTION!" THE undersigned, having purchased the materials of The Spectator, will issue, on or before the 10th inst. the first number of a new paper, to be called "The Constitution." It will be devoted to the steady advocacy of that system of measures which will preserve unimpaired the sacred instrument from which we borrow the name; and as constantly oppose whatever is not sanc-tioned by it. We shall unceasingly oppose a National Bank-a Protective Tariff-Internal Improvement by the General Government-a Distrioution of the Proceeds of the sales of the Public

We hope to make the paper worthy of the confidence and support of the Democratic Party- It shall be the faithful expositor of their principles, and the ever ready medium to convey their sentiments and wishes to the Public. The Democratic cause, is the cause of truth and justice. It courts the light. It shuns no investigation. And we are determined to see whether a paper conducted with a devotion to the principles, rather than to the men, of our party-to further the great cause of human progress, rather than the mere advancement of particular individuals, will not commend itself to the confidence and favor of the

As soon as the all-engrossing topics of the elections are over, we shall devote a liberal portion of our columns to subjects of general literature and science, endeavoring to present such matter as will amuse, instruct, and edify. The proceedings of Congress will receive par-

ticular attention, and a full and comprehensive summary will be given, including the yeas and mays upon all important questions. The paper, for the present, will be issued semiweekly during the recess, and daily during the sessions of Congress, at Five Dollars per annum,
